

Staff Station

Custom Design

Local Production

Thanks to Antenna
Design, Only the
Hazardous Materials
are Read

Read Up to
10 Materials

Effective Use

The staff station kit, thanks to its linear reading capability and unique design, ensures that only the materials placed in its slot are read during lending and return processes.

The staff station kit simplifies and accelerates lending/return operations with a capacity to read up to 10 items depending on book thickness.

Technical Specifications

Operating Frequency	865 MHz – 868 MHz range
Protocol	EPC Class1 GEN2 ISO 18000-6C
Standard	ETSI Standard
Dimensions	36 mm × 36 mm × 17.5 mm
Simultaneous Reading	Up to 5 items
Connection	TCP/IP LAN
Expandability	1, 2 or 4 users (Optional)
Multi-User Operating Principle	Independent from each other
Temperature	[-20°C, +55°C]
Humidity	%95 (max)
LLRP Support	Available
Connection	TCP/IP LAN
Antenna Gain	-7 dBiC
Impedance	50 Ohm
Max Input Power	+33 dBm
Radiation Pattern	Circular
Outer Casing	ABS Plastic
